

Job Vacancy

Job Title: Engineering Apprentice

Purpose: Working in the Engineering Department fabricating and assembling metal light fittings..
“to maintain a safe, clean and efficient workplace where we manufacture products to the correct specification and quality; at the same time ensuring that orders are completed in full and on time”.

Role:
The Engineering Apprentice will be located at the manufacturing facility in Basingstoke. During normal activities he/ she will report directly to the Engineering Supervisor but will be managed by the Production Manager and sponsored by the Production Director. The Apprentice will also have daily interaction with the Engineering Team Leader.

As part of the role you will be required to:

- Manufacture light fittings in accordance with the assembly drawings.
- Use hand, battery operated and air tools in a safe manner.
- Set and operate machinery (Brake Press, Panel Benders, Robotic Formers, Punch Machines and Paint Plant).
- Understand product design to enable effective development of processes and programs for manufacture.
- Comply with Quality, Health & Safety & ISO standards.
- Be motivated and meet team targets
- Understand and support new initiatives (5S, Lean Manufacturing)

The Candidate

It is important to underline that this role is the first step in a career at Luxonic; the person must have:

- A genuine interest in Engineering and Manufacturing; wish to develop a career in the industry.
- Have a good level of manual dexterity, able to assemble small components to a high standard and have the ability to multi-task.
- Ability to work well under pressure.
- Be physically fit.
- Good organisational, interpersonal and communication skills.
- Ability to make decisions.
- Ability to work on own or as part of a team.
- Excellent attendance level.
- x5 GCSE's A*-C including Maths and English

Hours of Work: 08:00 – 16:30 Monday to Thursday, 07:00 – 15:15 Friday.

Salary: Starting salary – dependant on experience.

Location: Basingstoke, Hampshire.
